

FRANKENWEENIE

LIFE FORMS

Once the secret is out that Victor knows how to bring dead pets back to life, his classmates want a piece of the action. His arch-enemy, Toshiaka, uses Victor's experiment to bring his ex-turtle, Shelley, back to life. Unfortunately, his plan goes wrong, and Shelley turns into a giant monster turtle that brings destruction to New Holland.

All animal and human life forms need to eat, move and grow.

- **Will Shelley's needs change when he turns into a monster?**
- **What will he eat?**
- **Where will he sleep?**
- **How will he move?**

Fill in the boxes on the next page, showing how Shelley's needs as a life form change from when he is a normal turtle to when he is turned into a monster.
